SharePoint Consulting Overview

What is SharePoint?

- Collaboration
- Content Management
- Portal
- Business Processes
- Search
- Business Intelligence

Microsoft SharePoint is a family of 2 products :
Windows SharePoint Services (**WSS**) and
Microsoft Office SharePoint Server (**MOSS**).

WSS is a team web site application that allows users to quickly and easily create intranets and team web sites. It provides a framework for team collaboration; it empowers users to collaborate on documents and tasks and to share contacts, events and other information.

MOSS builds on WSS by providing enterprise-wide search capabilities, powerful portal features including integration of multiple WSS sites and the ability to link to other business systems, user-based personalization and content subscription.

What can SharePoint do for you?

A SharePoint portal designed and built by Clarmedia will help you:

- Enable collaborative problem-solving leading to more effective and innovative solutions
- Improve access to information to support enhanced decision-making capabilities
- Create automated, online workflows to facilitate consistent, predictable, and measurable performance
- Enhance your ability to share knowledge and make everyone on your team more capable
- Establish a medium for clear and timely communications to handle fast-moving projects and operational activities

Our SharePoint Consulting Practice combines in-depth business knowledge with extensive experience with SharePoint Technologies. We help our clients rapidly deploy intranets and extranets that provide a competitive advantage and rapid ROI. Results are delivered faster and more cost-effectively than can be done using scarce internal resources and benefits are often realized within weeks.

ABOUT CLARMEDIA

Clarmedia is an interactive services firm that helps companies harness the online channel as a marketing and business tool. We architect solutions that build strong brands and improve relationships with customers, employees and partners. Our focus is on building exceptional user experiences through services such as web development, e-commerce, intranet portals, systems integration, branding, and interactive marketing.

Founded in 2000, Clarmedia has offices in New York and Toronto. For more information please visit www.clarmedia.com.
